

UCCE Caregiver Interactive Digital Survey - Ethiopia pilot

Introduce yourself and the project

Introduce yourself to the caregiver and show identification.

Introduce the project

“We are planning to make changes to the latrines soon and have limited resources to do so. To ensure we make the best of these resources we would like to hear your and your children’s opinion on options so we build the best possible.

When children feel uncomfortable using latrines and they do not use them this can cause some serious health risks. We recognise that this might be due to the latrines not being child-friendly. Our intention is to understand a bit better what would make a good latrine for your children so we can build better ones.

Whilst we will do our best to build the best latrines possible, we have limited resources in this emergency situation and we cannot promise that everything that is desirable will be included in new latrines.”

“As users of the sanitation facilities in the village, I am inviting you and your children to take part in this survey. We value your opinion. There are no wrong answers to the questions we will ask in the survey. We will use approximately 30 minutes of your and your children’s time to collect all the information. We will be asking questions about your experiences with sanitation facilities.

Your participation in this survey is completely voluntary. You are free to withdraw your consent and stop answering this survey at any time. If you decide that you do not want to answer the survey, there will be no negative effect. Once the survey has been completed,

your answers cannot be withdrawn but the information given by you will be anonymised. Your name will not be shared publicly or linked to your answers. We will use what you tell us to help us adapt and manage this project, and a research paper using the survey results may be published. There will be no reward for completing the survey but we hope to use what you tell us to improve the sanitation facilities.

If you have any questions, you can contact Save the Children by [contact details information].”

Please confirm that you consent to your children being asked to take part in this survey.
