

UCCE Children Interactive Digital Survey - Ethiopia pilot

Introduce yourself and the project

Introduce yourself to the child and get their verbal assent to take part in the survey.

"Hello. My name is [say your name] and I'd like to ask you some questions about the current sanitation facilities, if that's okay."

Introduce the project

"We think that if children use latrines and wash their hands afterwards then it helps stop them getting sick, but we know that sometimes some children don't want to use the latrines. We would like to build new latrines that you and other children will be happy to use, and we would like your help to build the best latrines that we possibly can"

Q. Do you understand what our project is about?

Yes

Receive verbal consent

Explain that they don't have to take part and can stop at any time

"I would like to ask you some questions about the latrines that you currently use. It should take about ten minutes. If you don't want me to ask you any questions then nothing bad will happen."

Q. Are you happy for me to ask you about the latrines that you use?

Yes

Explain that there are no wrong answers and they can stop at any time

"There are no wrong answers to the questions, you don't have to answer them all and you can stop answering the questions at any time and nothing bad will happen."

Q. Do you understand that you don't have to answer all of the questions and that you can stop answering the questions at any time?

Yes

Explain how the answers will be used

“We will use your answers to help make the latrines and handwashing facilities better for you and other children in this village and in others, but we will keep information about you safe and private.”

Q. Do you understand how your answers will be used, and that information about you will be kept safe and private?

Yes
